I am an attorney and principal in the law firm Gibson Wiley PLLC. I focus my practice of law on protecting workers in employment matters.

I am frequently asked to teach lawyers about employment law and litigation at continuing legal education seminars.

Over the past 20+ years, I have represented nurses, police officers, laborers, executives, administrative assistants, lawyers, sales associates, managers, teachers, and others in our community.

I guide people through employment problems, counsel workers through severance, and when necessary, sue employers that violate our laws.

I previously worked in the Commercial Litigation Section of Jenkins & Gilchrist, P.C. — one of the largest law firms in Texas at the time. I also previously worked in the Litigation Section of King & Ballow — a nationally recognized management-side labor and employment defense law firm.

I began my career assisting a federal judge: I worked as a two-year law clerk to the Honorable Mary Ann Vial Lemmon of the United States District Court for the Eastern District of Louisiana in New Orleans.

Experience

I'm a trial lawyer in the law firm Gibson Wiley PLLC. I've focused on representing workers in employment disputes for close to two decades. Our firm intentionally keeps a low case volume and focuses on cases that can help the community.

I'm often asked to teach employment law to groups that include defense lawyers, plaintiffs' lawyers, in-house counsel, and human resources professionals.

I teach trial, mediation and settlement, witness preparation, and employment for Keenan Trial Institute. I teach other lawyers from across the country on all kinds of cases — such as employment, child sexual abuse, catastrophic injury, wrongful death. I teach lawyers at all levels, from puppy lawyers to some of the best, most experienced lawyers in the country.

The song *The People in Your Neighborhood* describes the people we represent. Rancher, teacher, librarian, police officer, security officer, firefighter, juvenile probation officer, factory worker, oil and gas foreman, doctor, nurse, physical therapist, social worker, city engineer, rocket scientist, national defense satellites project manager, office manager, human resources manager, secretary, paralegal, attorney, salesperson, computer whiz, and workers in the retail, restaurant, car wash, airplane repair, and radio station industries.
